

# ZFKL388 系列特征

## FEATURES OF ZFKL388 SERIES

该接经机是目前世界上最先进的一款机电一体化，高效高性能接经机，从而实现了目前纺织界一直延续手工造机这一道相当频繁的程序，穿棕、穿扣、上机一系列的工作时间长、劳动强度大，是一直难以克服的瓶颈，本公司最新研发ZFKL388型、接经机以获国家专利，给众多的企业带来了福音，解决了长期以来的困扰的难题。

This warp knitting machine is one of the most advanced mechatronics machines in the world at present, with high efficiency and high performance, thus realizing that the textile industry continues to make the machine by hand at present. A fairly frequent procedure, wearing brown, wearing buckles and getting on the machine for a series of long working hours and heavy labor intensity, is a bottleneck that has been difficult to overcome. The company is up to date. The research and development of ZKL 388 model and warp knitting machine to obtain the national patent has brought good news to many enterprises and solved the long-standing puzzle.

- 采用无电刷马达，不烫、不发热；
    - a 安全极其简单，
    - b 运转时机械声音小，
    - c 可以瞬时停止。
  - 最高时速可达600根/分。
  - 液晶显示器可表示结经根数。
  - 三次空结自动停止转动。
  - 可任意调节不同规律起纹织物的对结。
- With brushless motor, it doesn't become hot or emit heat.
    - a. Maintenance is every easy;
    - b. Mechanical sound is low during operation;
    - c. It can be stopped instantly.
  - Maximum speed reaches 600 yarns/minute.
  - Liquid crystal display shows quantity of tying yarns.
  - It stops working automatically in case of three ineffective knots.
  - It freely adjusts knots of tying textiles with different patterns.

### 技术指标

#### TECHNICAL DATA:

型号 Type	ZFKL388 自动接经机 ZFKL388 AUTOMATIC WINDER
适用纱线种类 Application Yarn Type	棉、毛、丝、化纤、玻璃纤维 Cotton, Silk, Worsted, Filament yarn, Chemical, Synthetic, Monofilament, Glassfiber
纱线粗细范围 Range Of Yarn Count	100s-2s      20d-4000d
适用经线成结条件 Tying of Warp Yarn Type	① 无纹织物与无纹经轴的对结 Warp without lease to new warp without lease. ② 无纹织物与有纹经轴的对结 Warp without lease to new warp with lease. ③ 有纹织物与无纹经轴的对结 Warp with lease to new warp without lease. ④ 有纹织物与有纹经轴的对结 Warp with lease to new warp with lease.
有效宽幅 Available Width	1m, 1.8m, 2m, 2.3m, 2.5m, 3m, 3.5m 所需尺寸可根据客户要求满足 Other size are available upon request
结经速度 Tying Speed	最高达600根/分 600 knots/min.(max.)
马达 Motor	新型无刷电机 DC 36V 180W Brushless motor DC 36V 180W
